About DAAD (Deutscher Akademischer Austauschdienst) German Academic Exchange Service

The DAAD is the organization for the internationalization of German universities. It opens up access to the best study and research opportunities for students, researchers and teachers by awarding scholarships and promotes transnational cooperation and partnerships between universities through customized programmes. Furthermore DAAD strengthens German Studies and German language abroad and assists developing countries in establishing high-performing universities.

Awarding grants and scholarships belongs to the core activities of the DAAD. Since its founding in 1925, DAAD has supported around 2 million scholars in Germany and abroad, making it the largest funding organization for academic exchange worldwide. It is carried as an association by German universities and student bodies. The budget comes mainly from federal funds from various German ministries, primarily from the Ministry of Foreign Affairs, but also from the European Union and other sponsors.

This brochure contains annual and non-annual DAAD scholarship programmes. Please get an update at www.funding-guide.de or/and contact us for more details.

Five reasons to study in Germany

Germany is the fourth most popular destination among international students in the world. More than fourteen percent of students at German universities come from abroad. Germany is an attractive place to study and German university degrees are highly respected by employers worldwide.

1. Top quality

German universities offer excellent teaching and research, ranking among the best in the world. You will earn an internationally renowned degree, giving you excellent prospects on the global labor market.

2. Geared to practice

German universities provide outstanding academic programmes, while universities of applied sciences offer a range of attractive, practice-oriented options. Many study programmes combine theory and practice. This will greatly facilitate your career start.

3. Potential unlocked

In Germany, you can make the most of yourself. Here you can develop your intellectual abilities and personal skills freely and reach your full potential. If you are out to achieve great things, you will find determination, motivation and commitment open many doors – both during your studies and after your studies.

4. Safe country

In comparison with other countries, Germany is a safe country. In town or in the countryside, by day or by night, you can move around freely here. Germany offers economic and political stability and offers an excellent health system, which makes it an ideal place for you to study.

5. Diversity

Discover the beauty and diversity Germany has to offer! When you take time off from your studies, there are 1001 ways of finding out more about your host country. For example, you can go to a museum, a cinema or a theatre, you can sit in a beer garden, you can go for a walk on a beach, you can swim in a lake, climb a mountain or visit an old castle.

I. Scholarships for graduates, master candidates:

1. Development-Related Postgraduate Courses (EPOS)

Target group:

- Master courses for young professionals from developing countries

Funding:

- Master: 861 €/month
- Travel allowance, health, accident and personal liability insurance, a study and research subsidy as well as rent subsidies and/or allowances for spouses and/or children

Main requirements:

- Candidates fulfil the necessary academic requirements and can be expected to successfully complete a study programme in Germany.
- Candidates have a Bachelor degree (usually a four-year course) in an appropriate subject and have at least two years' professional experience.
- Candidates can prove their motivation is development-related and be expected to take on social responsibility and initiate and support processes of change in their personal and professional environment after their training/scholarship.

Application deadline: depending on the selected course and apply directly at the university

Details: daad.de/go/en/stipa50076777

Contact: Please find contact details for the different study courses in the EPOS brochure at the link above.

2. Helmut-Schmidt-Programme (PPGG)

Target group:

- Open for well qualified graduates with a first university degree (bachelor or equivalent) who want to actively contribute to the social and economic development of their home countries (Africa, Latin America, South Asia and Southeast Asia, from countries in the Middle East as well as from the Ukraina). The scholarships are offered both for young graduates without professional experience and for mid-career professionals.

Funding:

- Master: 861 €/month
- 6 months for German language course
- Travel allowance, health, accident and personal liability insurance, a study and research subsidy as well as rent subsidies and/or allowances for spouses and/or children

Main requirements:

- Candidates fulfil the necessary academic requirements and can be expected to successfully complete a study programme in Germany.
- Candidates have a Bachelor degree in an appropriate subject which should have been obtained during the six years prior to the application for the scholarship.

Application deadline: from June 1st to July 31st depending on selected study course

Details: daad.de/go/en/stipa50026397

Contact: Please find contact details for the different study courses at the website above.

3. Study Scholarships - Postgraduate Studies in the Field of Architecture

Target group:

- Applicants who have gained a first university degree in the areas of Architecture, Interior Design, Monument Conservation, Urban Planning/Urban Development, Regional Planning, Landscape Architecture and Landscape Planning at the latest by the time they commence their scholarship-supported study programme

Funding:

- Master: 861 €/month
- A Master's degree/postgraduate degree leading to a final qualification, or a complementary course that does not lead to a final qualification (not an undergraduate course) at a state or state-recognised German university of your choice

Duration:

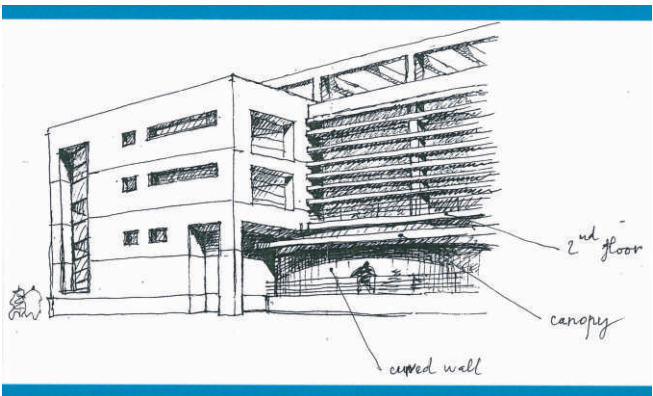

- Between 10 and 24 months depending on the length of the chosen study programme or project

Main requirements:

- As a rule, applicants should have taken their final examinations no longer than six years before the application deadline.
- Applicants who have been resident in Germany for longer than 15 months at the application deadline cannot be considered.
- See extra info: www.daad.de/extraintfo

Application deadline: Depending on your chosen course

Details: daad.de/go/en/stipa57034100

Contact: gssp@daad.de

III. Scholarships for university lectures and researchers:

1. Re-invitation Programme for Former DAAD Scholarship Holders

Target group: DAAD Alumni who must have returned to their home country at least three years previously and have usually completed a doctoral degree and work at a university or research institute in their home country

Duration:

One to three months; the length of the grant is decided by a selection committee and depends on the project and the applicant's workschedule.

Funding:

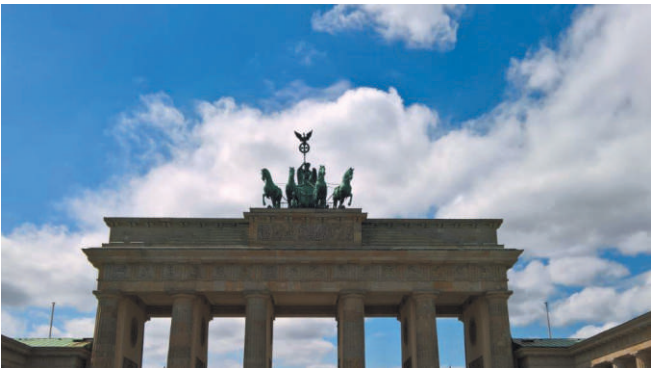

- 2.000 €/month for assistant teachers, assistant professors and lecturers
- 2.150 €/month for professors
- Travel allowance

Main requirements:

- Applicants should hold a doctorate degree.
- Applicants must work at a university or institute of higher education in their home country.
- The research project must be coordinated with an academic host institute in Germany.

Application deadline: Beginning of April and October. Please check the exact date at the link below.

Details: daad.de/go/en/stipa50015492

2. Research Stays

Target group: Lecturers at a university and researchers from research institutes who have usually completed a doctoral degree and work at a university or research institute in their home country

Duration:

One to three months; the length of the grant is decided by a selection committee and depends on the project in question and the applicant's workschedule.

Funding:

- 2.000 €/month for assistant teachers, assistant professors and lecturers
- 2.150 €/month for professors
- Travel allowance

Main requirements:

- Applicants should hold a doctorate degree.
- Applicants must work at a university or institute of higher education in their home country.
- The research project must be coordinated with an academic host institute in Germany.

Application deadline: April and October. Please check the exact date at the link below.

Details: daad.de/go/en/stipa50015456

3. DLR-DAAD Research Fellowship Programme

Target group: Highly-qualified foreign doctoral and postdoctoral students and senior scientists, who have a research topic in the fields of Aeronautics, Space, Transportation and Energy

Duration:

- Type B - Postdoctoral Students: 6 to 24 months
- Type C - Senior Scientists: 1 to 3 months

Funding:

- Type B - Postdoctoral Students: 2.400 €/month
- Type C - Senior Scientists: 2.760 €/month

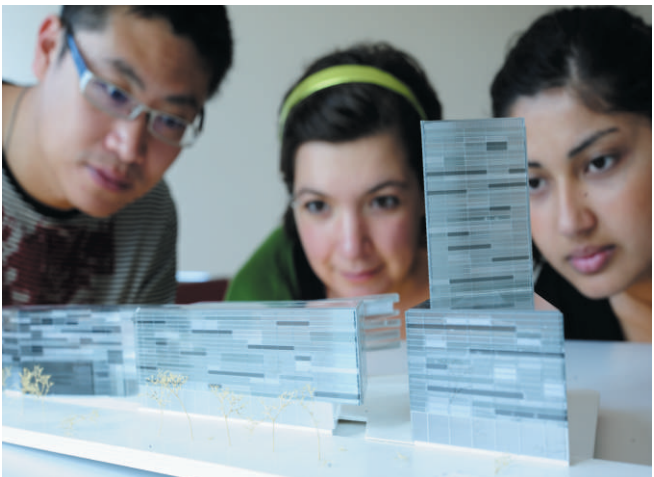

Main requirements:

At the time of their application, applicants for a DLR-DAAD Fellowship must

- be able to prove their outstanding study or research achievements,
- Type B: have completed their studies with a PhD not more than two years ago,
- Type C: be working in higher education or at a research institute; positions are open to outstandingly qualified academics and scientists who should generally hold a doctorate/ PhD,
- have an excellent knowledge of English; knowledge of German is advantageous,
- not be of German nationality.

Application deadline: See details at www.daad.de/dlr and daad.de/go/en/stipa50019749

Contact: dlr-daad-program@daad.de

IV. Other programmes:

1. DIES Training Courses

The programme “Dialogue on Innovative Higher Education Strategies” (DIES) offers modular, practice-oriented training opportunities for management level professionals from universities in developing countries. The training offers are based on a blended-learning approach.

Target group: Management level professionals from universities in developing countries

Funding:

- Travel costs, course expenses, accommodation and joint meals
- For some courses, participants' home institutions are expected to pay a one-time co-funding fee of between 300 € to 600 €.

Participants' Profile:

- Management level professionals from universities in developing countries
- Applicants hold at least a Master's degree
- Excellent English language skills
- Each course has its own further, specific requirements

Details: www.daad.de/dies-training/en

2. Study Visits by Groups of Foreign Students

Target group: University teachers from a public and state-recognised foreign university are eligible to apply for a group of maximum 15 students.

Duration: 7 to 12 days

Main requirements:

Students must be registered at a foreign university and have completed at least one semester.

Details: daad.de/go/en/stipa10000016

Contact: dahmann@daad.de

3. Practical Traineeships for Foreign Students of Natural and Technical Sciences, Agriculture and Forestry (IAESTE – Association for the Exchange of Students for Technical Experience)

Target group: Students of Natural and Technical Sciences, Agriculture and Forestry who are enrolled in member countries of the IAESTE

Duration: Usually 2 to 3 months, in some cases longer

Funding: 861€/month and medical, accident and personal liability insurance

Main requirements:

Applicants must be enrolled at a university throughout the internship period. The internships in Germany are offered abroad exclusively through the respective IAESTE national committees, which in turn find internships for German university interns.

Details: daad.de/go/en/stipa57352834

Contact details: www.iaeste.org

4. A lot of DAAD offers for International Alumni

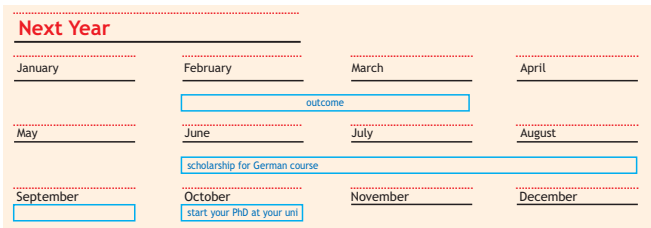

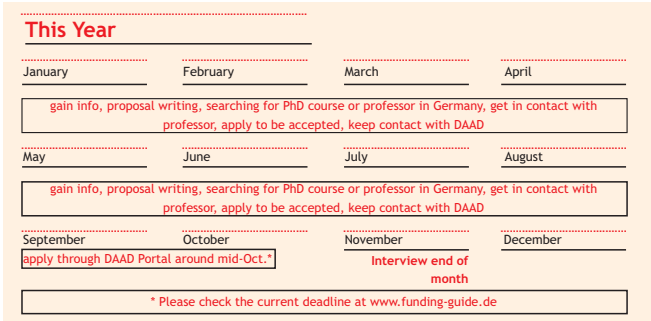

Target group: DAAD Alumni

Details: daad-vietnam.vn/en/alumni-services

Some hints:

This schedule is our suggestion for the preparation for a DAAD Research Grants – Doctoral Programmes in Germany Application.
